NACCHO Survey on LHD Job Losses and Budget Cuts (July – August 2009)
Instrument

Thank you in advance for participating in NACCHO's local health department (LHD) economic surveillance survey. You have been selected to take part in one of a series of surveys that will quantify and describe the impact of the recession on LHDs and their communities. Since you are part of a small, statistically representative sample of LHDs selected to receive this survey, your participation is essential for accuracy of survey results. The data collected in this survey will be invaluable as NACCHO advocates vigorously this year for greater federal resources for LHDs during the ongoing healthcare reform debates.

NOTE: For the questions concerning revenue, please consider all sources of revenue such as local, state, federal, fees etc. You may use the arrows at the bottom of each page to navigate throughout the survey and return to prior questions. If you need to close the survey and return to it at a later time, your answers will be saved. When you reach the final page of the survey, you will be prompted to submit your responses.

Q1 My local health department's current operating year budget is:
☐ Less than the previous year's budget
☐ Approximately the same (within plus or minus one percent) as the previous year's budget
